

TA CONFERENCE CALL NOTES
February 21, 2008

- **Technology Request for Offers** are currently being evaluated. We anticipate awarding the contract in early March and the contractor starting in April 2008.
- **Center for Results** implementation strategy is located at <http://www.first5eval.com/center4results.htm>. We anticipate releasing a scope of work in March 2008 for the Strategic Research contractor using one of Department of General Services leveraged procurement processes and have them on board in April or May 2008. The County TA Contractor will be the next contractor shortly thereafter.
- **2006-2007 Annual Report** is available online at www.ccfc.ca.gov. The 2006-07 Annual Report is a 35 page document and looks different from last year.
- **2006-2007 County Profiles** document is a separate publication this year. First 5 California will send two copies of the Annual Report and County Profiles with an accompanying CD to each county commission in early March.

Q: Will the recently requested outcome information be added to the Annual Report for 2007-2008?

A: The 2007-2008 Annual Report will have optional requirements including providing program outcome information.

Q: Have the pre-conference institutes for the First 5 Annual Statewide Conference been planned?

A: During part one, participants will discuss how evaluation findings can be most effectively used internally, to guide commission decision-making and program improvement, and externally, to tell the First 5 story. During part two, First 5 California staff will provide an overview of the strategy being used to implement the Center for Results.
